21	Certifications		

MISSION

Fondation Musicaction is a non-profit organization founded in 1985 by private broadcasters and music industry professionals. Its main objective: contribute to the development of local francophone music by offering financial support to projects undertaken by independent record labels and Canadian artists. From supporting production of sound recording to development of collective initiatives on international markets, as well as album marketing, live performances and promotion of artists from minority francophone communities, Musicaction provides the recording industry community with a wide array of tools designed to stimulate the growth and exposure of original French-Canadian music.

To this end, in 2021-2022, Musicaction, through contribution agreements with Canadian Heritage, managed the francophone portion of two Canada Music Fund components, *Individual Initiatives* and *Collective Initiatives*. Contributions from private radio broadcasters reinforced Musicaction's involvement with the two components. Since 2002, the Foundation has also been managing Fonds RadioStar, which is aimed at promoting and marketing local francophone music. Fonds RadioStar is 100% funded by private radio broadcasters. In 2018, a CRTC decision entrusted Musicaction with the management of new funding from private television groups for the next four years to increase and promote Canadian music content via music *Videos*.

MESSAGE FROM THE CHAIRMAN

A TIME FOR RENEWAL AND FOR SHOWS!

Fondation Musicaction's 2021-2022 fiscal year ended as the music industry reclaimed its venues and reconnected with the public, at the end of a second year marked by interruptions in the stage activities so essential to the industry. This gradual winter and spring revival renewed hope for everyone, including the Foundation.

This year was a landmark one for Musicaction, with record contributions reaching \$38 million, mainly due to the four emergency support and recovery funds from the Minister of Canadian Heritage aimed at supporting the music sector in these uncertain times. Of these, three will have focused on performances and their various players: *Support for Live Music Events*, *the Emergency Support for Canada's Live Music Sector – Stream 1* and *Support for Live Concerts – Stream 2*.

As for the *Support to Compensate the Decrease in Canadian Content Development (CCD) Contributions by Commercial Broadcasters – Stream 3*, it should be noted that it will have, among other things, made it possible to increase the number of projects supported under the regular Production Jury programs, which have seen a 25% increase in demand this year and a 52% increase over the last two years. Artists have been inspired and creative and we are proud to have been able to support them more. In the same spirit, the maximum amount of support that can be granted to a songwriter or composer who has participated in the production of a funded sound recording has been increased to \$5,000. The Foundation also continued to modernize its programs, notably by initiating a thorough and broad-based review of the ways to access its funding, including jury selection, an important project that will be completed in the coming year.

With the desire to participate in the development of a diversified and inclusive music sector, last March, the Foundation published the report on the study on the place of women in the Canadian francophone music industry.

The team also set up a pilot project aimed at accompanying Indigenous entrepreneurship, a project that was carried out throughout the year and was a source of enrichment and exchange for all. Our policy on gender equality, diversity and inclusion within the Board of Directors and senior management was also improved, with the objective of achieving parity in our decision-making bodies and making them more reflective of minority and equity-seeking groups.

In terms of governance, the Foundation also conducted a process to update its values, defined seven years ago, that are dear to the Foundation and that guide both the team and the Board in their actions. We look forward to sharing them with you in the coming year. We would also like to highlight the end of Solange Drouin's mandate as a director, who has served on the Board for the past 22 years. We thank her for her unwavering commitment.

In short, in a year marked by a significant increase in the financial assistance offered and, in the work involved, the Foundation has remained true to itself as a constant partner, committed to and supportive of the entire music sector. It has had to be agile to ensure that these additional sums of money quickly reach the clientele. This feat was achieved thanks to the dedication and hard work of its team, which was expanded at the beginning of the year, and which succeeded in integrating new colleagues who came to lend a hand while working from home.

Thank you, everyone!

A handwritten signature in black ink, appearing to read 'Rodr'.

Pierre Rodrigue
Chairman of the Board of Directors

BOARD OF DIRECTORS AND MUSICACTION STAFF

In 2021-2022, the Board of Directors was made of 15 voting members. They consisted of four broadcaster representatives appointed by CAB, four industry representatives appointed by ADISQ, two songwriter representatives appointed by SPACQ and also three individuals with knowledge of the Canadian music industry, including one representative from the publishing industry, along with two individuals who are external and independent.

Directors are governed by a *"Board of Directors diversity policy"*, which was enhanced in 2021-2022. In this policy, the three members of the Foundation undertake that at least half of their representatives be women. In addition to parity, the policy also clearly reflects the wish to increase representation by other minority groups or equity-seeking groups. This policy can be found on the website of the Foundation.

The Board of Directors approves the Foundation's strategic orientations and measures their progress, makes sure the programs are being managed effectively and efficiently, and is responsible for the organization's financial oversight. More specifically, in respect of the funding approval process, the Board's role is limited to accepting during its meetings a list of applications submitted by the administrative staff. As a result, Board members do not review individual applications, other than special situations occasionally brought to their attention. This minimizes the risk of potential conflicts of interest.

As for the administrative staff, it consists of 22 employees. It is entrusted with the management of day-to-day operations, under the supervision of the executive leadership. The staff reviewed over 1,800 applications last year, and based on the type of funding requested, adheres to firmly entrenched procedures that include control mechanisms at every step of the process to ensure applications are reviewed thoroughly and fairly. The employees are governed by a code of conduct and professional ethics while Board members are governed by a code of ethics and professional conduct.

ACCOMPANYING INDIGENOUS ENTREPRENEURS IN THEIR COMMUNITIES

In the fall of 2020, Musicaction's team was looking for solutions to stimulate applications from Indigenous artists in the production and marketing programs. One of the solutions chosen was to target resource people within Indigenous communities and match them with certain artists for coaching purposes. The idea of targeting resource persons within the Indigenous communities who would be interested in accompanying and guiding the artists appeared to be an interesting avenue to explore. Thus, a first pilot project aimed at accompanying four entrepreneurs over a period of one year was launched in the spring of 2021.

Three areas of support were defined to provide the participating entrepreneurs with the most appropriate tools possible. First, financial support was offered to develop one or more First Nations artists. Secondly, each participant was paired with industry professionals with the objective of creating connections, exchanging information on the various aspects of the profession and sharing respective knowledge. Finally, the participants were able to take advantage of various training sessions offered by organizations in the sector as well as by two professors from the School of Management Sciences at UQAM.

It is with great pride that we present the four entrepreneurs who paved the way for this pilot project with us. They are Patrick Boivin, an Atikamekw musician from the community of Wemotaci, paired with Patrice Agbokou of Pasa Musik; Luc Vincent-Savard, a Huron-Wendat entrepreneur experienced in visual arts from the community of Wendake, supported by Rafaël Perez of Coyote Records; Nelly Jourdain, Innu manager from the community of Uashat mak Mani-utenam, supported by Stéphanie Moffatt of Mo'fat Management; and Mathieu McKenzie, also Innu from the same community, artist and musician, paired with Steve Jolin of Disques 7^{ième} Ciel.

Five artists were supported by this first cohort of entrepreneurs. Nelly and Mathieu, being business partners with Kim Fontaine and Florent Vollant in the new company Makusham Musique (which succeeds Studio Makusham), decided to support three artists in their career development by dividing the responsibilities. They have supported the Innu/Naskapi artist Uapush Vollant, the young Innu band Ninan who participated in the showcase competition Les Francouvertes this spring, as well as the musical band Maten in which Mathieu is also a musician.

For his part, Luc worked with the Cree Nation of Quebec singer-songwriter Melisa Pash. Together, they have recorded four songs and will soon be promoting a first single. As for Patrick, his accompanying project is centered around the Atikamekw artist Pascal Ottawa (Pako).

Three recording projects will be used, among other things, to apply to the Production Jury program in 2022. The entire process, from the production of a professional demo to the submission of a project, will then have been completed. We would like to congratulate Patrick, Luc, Nelly and Mathieu for their commitment, their perseverance and, above all, their dedication to the artists they have chosen to support.

WOMEN IN THE CANADIAN FRANCOPHONE MUSIC INDUSTRY – RELEASE OF THE STUDY REPORT

RELEASE OF THE STUDY REPORT

Women in the Canadian Francophone Music Industry

- By Joëlle Bissonnette

*available only in French

In an effort to better support women working in the music industry, the Foundation called upon university researcher Joëlle Bissonnette to learn about the challenges they face in the Canadian francophone music industry.

Released on March 29, 2022, the study's report gave a voice to many women from all sectors of the industry. In fact, the four phases of the study made it possible to collect and analyze more than 600 testimonials, well beyond the initial objective set! These abundant and rich responses allowed the researcher to paint a comprehensive portrait of women and the multiple challenges they face.

With the objective of being a constructive tool for the entire musical community, the report presents the numerous solutions that have emerged from the field. These solutions, developed by the participants, aim at a better inclusion of women and are brought together to form four groups: Training and skills development, Incentives for inclusion, Networking, mutual aid and socialization, and Recognition and enhancement. The solutions that emerged are varied, ranging from mentoring or training in technical tasks to valuing women already in decision-making positions and recognizing their diverse leadership styles.

As the report points out, each avenue explored and implemented has the potential to positively impact several dimensions of the situation of women in the Canadian francophone music sector, including paving the way for other avenues of solution. We all have a role to play at our level – let's be inspired!

A SECOND YEAR OF EMERGENCY FUNDS TO ASSIST BUSINESSES AND ARTISTS AFFECTED BY THE HEALTH CRISIS

In 2021-2022, Fondation Musicaction was again entrusted by the Department of Canadian Heritage with the management of emergency funds to assist the various sectors of the Canadian francophone music industry affected by the COVID-19 pandemic.

First, the *Support for Live Music Events* program was established in the spring of 2021 to stimulate employment in the sector by providing financial support to music projects, such as shows, tours and showcases, that featured Canadian artists, both in person and virtually.

A diverse clientele benefited from this **\$5.7 million** program, including artists, festivals, promoters, show producers and venues. Through the 79 projects accepted, more than 450 artists presented their work to an audience of more than 500,000 people, while providing employment to some 3,500 entertainment professionals.

Subsequently, in early August 2021, the Department of Canadian Heritage launched *Stream 1 - Emergency Support for Canada's Live Music Sector* to help organizations and businesses facing financial pressures due to the pandemic to stay in business beyond the crisis. As such, the assistance provided was primarily aimed at maintaining jobs and ensuring the continuity of performance activities, including cash flow and operational viability in the short term.

Once again, a diverse clientele benefited from Stream 1 with a total of more than **\$5.8 million** in assistance through 184 applications from managing agents, artists, festivals, show producers-presenters-promoters and venues.

Finally, in the fall of 2021, *Stream 2 - Support for Live Concerts* aimed to encourage the resumption of live performances across the country in the following months, safely and in compliance with local, provincial and national public health guidelines.

Nearly **\$7.7 million** will have been paid out under this program to a variety of clients, including managing agents, artists, festivals, show producers-presenters-promoters and venues. Thirteen venues took advantage of *Component 1, Infrastructure Improvement Assistance* to bring in-person concerts up to health and safety standards, 66 individuals/companies/organizations benefited from *Component 2 - In-Person, Virtual and Hybrid Concert Presentation*, and 56 individuals/companies/organizations applied to *Component 3, Live Concert Presentation* to help Canadian artists rebuild their audiences.

Once again this year, the Fondation Musicaction team was able to adapt and work hard to ensure that funds were allocated quickly and efficiently to the greatest number of Canadian francophone artists and businesses affected by the crisis. The organization is proud to have contributed to the collective effort to revive the performing arts and the various sectors of our music industry.

CANADA'S FRANCOPHONE COMMUNITIES

The Fondation Musicaction witnessed again this year increased artistic development and professionalization by artists and those who help them within francophone minority communities. We are proud to support the artists that are emerging and developing within their community, either through our *Music Showcases* program or our other programs.

With shows starting up again, their vibrancy on stage was felt throughout the provinces and territories during the last year. A total of **96 performances** were done, within **26 showcases** before professionals at events and 11 show tours throughout Canada. Of note, the Canadian tours of **Étienne Fletcher** from Saskatchewan and **Les Hay Babies** from New Brunswick did a combined total of 20 shows in 7 different provinces and territories, including Yukon and Newfoundland and Labrador!

The resumption of international activities within the last few months also gave eight artists the opportunity to dazzle outside Canadian borders. The Foundation supported **Émily Landry, Les Hay Babies, Yao, Mehdi Cayenne, Rayannah, Shaun Ferguson, P'tit Belliveau** and **LGS** for promotional activities, show tours and showcases during international partner events.

The one-time component created within the *Music Showcases* program to mitigate the impossibility to do public performances was maintained in 2021-2022. It thus allowed **13 artists** from francophone communities to record, promote and broadcast their shows.

These numerous artists are a great source of inspiration and models of resilience and perseverance. Allow us to present, on the next page, the **53 artists and groups** that shined during this past year as well as the **33 songwriters and composers** from these communities that were supported in 2021-2022.

Here are the talented artists who enriched Canada's francophone music culture in 2021-2022:

Alberta

Artists:

Collectif franco-albertain
Cristian de la Luna

Songwriters and composers:

Marie-Josée Ouimet
Damien Robert

British Columbia

Artist:

Loig Morin

Songwriters and composers:

Richard Beynon
Ryan Lore

Manitoba

Artists:

Jocelyne Baribeau
Beauséjour
Rayannah
Sala

CANADA'S FRANCOPHONE COMMUNITIES

Artistic talent is important, but initiatives allowing that talent to stand out are just as important! We can truly say that there are numerous partners within the various events and organizations of francophone communities that provide an ever-increasing place to artists from Canada's francophone communities to help in the development of their careers. We wish to thank all of you for your constant and extraordinary contribution during the last year:

Atlantic:

East Coast Music Association (Halifax), Fédération culturelle acadienne de la Nouvelle-Écosse (FéCANE), Fédération culturelle de l'Île-du-Prince-Édouard, Festival acadien de Caraquet, Gala de la chanson de Caraquet, Musique NB, RADARTS (FrancoFête en Acadie) and Société nationale de l'Acadie.

National Organization:

ANIM.

Ontario:

APCM and Réseau Ontario.

Québec:

Coup de cœur francophone, Festival de la Chanson de Tadoussac, Festival international de la chanson de Granby, Les FrancoFolies de Montréal, Les Francouvertes, Réseau national des galas de la chanson, RIDEAU, ROSEQ, SACEF and Village en chanson de Petite-Vallée.

Western Canada:

100 Nons (Manitoba), Association franco-yukonnaise, Centre de développement musical de l'Alberta, Conseil culturel et artistique francophone de la Colombie-Britannique (CCAFCB), Conseil culturel fransaskois, Manitoba Music, Regroupement artistique francophone de l'Alberta (RAFA), Réseau des grands espaces and Western Canadian Music Awards (WCMA).

Diamond	800,000	400,000

ACCESS TO FUNDING

Projects are assessed and selected through one of the three following ways:

Direct approval:

Only *National Marketing* projects for albums supported through the jury selection process and applications under *Marketing Support for Business* can receive direct approval.

Jury selection:

Projects submitted via the *Album Production, Song Production and Promotion* and *Emerging Artists Support* programs are subject to an artistic evaluation by a jury of artists, music professionals and media representatives. In addition, they are assessed using a grid that takes into account their professional environment and marketing plan.

The external evaluation of the projects is carried out by one of four separate juries, each one focusing on a different type of music: *popular music, specialized music, instrumental music, and music by official language minority communities*. This access route is mainly used by self-produced artists and young businesses.

Evaluation grid:

Projects submitted via the *National Marketing* program for albums which production was not supported by Musicaction and those submitted via the *Development of Artists' Careers, of Skills and Businesses* program are assessed using a grid taking into consideration the professional environment, the marketing plan and the actual or potential outcomes of the project. All applications via the *International Marketing* program and those under the various programs making up the *Collective Initiatives* component are also assessed using a grid taking into consideration the objectives and criteria of each program. Projects under the *Comprehensive Funding Envelope* program are also assessed based on a formula which initially had to consider the income and investments of the applying businesses.

These various ways to gain access to its programs allow the Foundation to ensure the expression of musical diversity and new trends, as is reflected in the following table classifying projects funded by their music category:

MUSICAL CATEGORIES	2021-2022						2020-2021
	Applications Submitted	Amounts Requested \$	Applications Approved	Albums Funded *	Amounts Offered \$	%	%
Alternative	62	972,745	21	9	322,469	7.6	8.8

 Results stemming from the review of applications filed under the *Album Production, Song Production and Promotion* and *National and International Marketing* programs

JURORS IN 2021-2022

In the interests of transparency and integrity, but also to better inform its customers, Musicaction documented its jury selection process to provide all stakeholders, including applicants and jurors, with a comprehensive policy allowing a better understanding of the rules and procedures governing the establishment and holding of its juries. This policy is available on our website.

Whatever the approval method, a project's acceptance is still subject to the applicant's financial capacity to carry out future projects. The Board of Directors confirms the approval of all projects.

A huge thank you to everyone who participated to an artistic evaluation committee in 2021-2022.

FINANCIAL RESULTS 2021-2022

1. RESULTS FOR 2021-2022

Revenues

For the year ended March 31, 2022, Musicaction recorded revenues of **\$42,460,063**.

Financial Contributions

Musicaction paid out **\$38,067,102** in financial aid. The aid generally consisted of initial payments for projects accepted during the current year and final payments for projects accepted previously.

Other Expenditures

For the year ended March 31, 2022, Musicaction's administration costs and amortization of capital and intangible assets amounted to 4.6% of total revenues, compared to 4.8% in 2020–2021.

INDIVIDUAL INITIATIVES COMPONENT - APPROVED PROJECTS

Comprehensive Funding Envelope

39 businesses

\$8,800,000

This program, one of the pillars of the modernization of the *Canada Music Fund* (CMF) and now in its second year, uses an income and investment-based model for funding businesses. Financial support is granted once a year to a beneficiary allowing it to undertake a series of activities to foster the development of the career of Canadian artists and the promotion of their music. This program concerns sound recording production and promotion expenses as well as expenses related to domestic and international tours and music showcases, music publishing, artist management and business development activities.

Funding is granted to businesses on a competitive basis, according to their recent successes assessed on the basis, on the one hand, of their admissible prior income and, on the other hand, their business plans and prior and future admissible investments.

The businesses must meet certain conditions and, in addition to achieving them, must make admissible investments in respect of a majority of francophone projects during 2021-2022, or have a history of filing applications with Musicaction.

An individual business can receive up to a maximum of \$650,000. A group of affiliated businesses cannot receive more than a maximum total amount of \$800,000 per year.

Album Production

88 Artists or groups

\$1,512,650

This program is intended for production of sound recordings. An album must have a minimum of 6 tracks (each one lasting at least 60 seconds) or musical content of 20 minutes. This program is for applicants who have a contract with a recognized physical or digital distributor or who are working with a record company that has such a contract. The album project must comply with Canadian and French-language content requirements.

Album projects undergo an artistic evaluation by an independent jury made up of artists, music professionals and media representatives, and an evaluation grid that takes into consideration the professional environment surrounding the artist and the marketing plan.

Funding granted can reach up to \$28,000 for Francophone vocal music and world music projects, and up to \$23,000 for other music genres. In 2021-2022, Musicaction funding could cover up to 75% of eligible expenses.

Businesses granted a global funding envelope under the Individual Initiative component are not eligible for funding under the Album Production program.

Song Production and Promotion

Song Production:
31 artists or groups
\$226,550

Song Promotion:
27 artists or groups
\$330,025

This program is for production of a maximum of four songs in digital format intended for immediate promotion. Applicants to this program must have a distribution contract with a recognized physical or digital distributor or be working with a record company that has such a contract. The recording must comply with Canadian and French-language content requirements.

Maximum funding for production is \$16,800, i.e. \$4,200 per song for a maximum of 4 songs, and \$14,000 for promotion purposes. Projects subject to jury consideration under this program are evaluated at 40% for artistic merit and at 60% according to the evaluation grid. In 2021-2022, Musicaction funding could cover up to 75% of eligible expenses.

Businesses granted a global funding envelope under the Individual Initiative component are not eligible for funding under the Song Production and Promotion program.

Songwriters and Composers Grant

484 songwriters and composers

\$681,965

To foster the development of an original music repertoire and collaboration between songwriters and composers, funding is automatically granted to Canadian songwriters and composers who took part in an album or a song which production was funded by Musicaction. It must be for a work of at least 60 seconds that is being reproduced for the first time on a commercial medium. Funding is limited to the Canadian portion of the work. Funding is paid when the sound recording project is completed and is of \$900 per song, i.e. \$450 for the lyrics and \$450 for the music, up to a maximum of \$9,000 per project.

Emerging Artist Support Program - Support to Song Production

28 artists or groups

\$135,800

The main objective of this program is to professionalize and integrate early-stage artists into the music industry. The program is directly geared to these artists, covering their production of two to four digital titles and their canvassing activities, for the purpose of integrating them into the industrial structure. The artist must not have already recorded an album or, in the opposite case, the works must not have been marketed in the traditional retail circuit but rather independently. An exception is made to this rule for artists from Canadian French-language communities who may have marketed a single album or digital titles. The project is evaluated at 60% artistically and at 40% according to the grid granting points for the path of the artist in recent years. Maximum funding that can be granted is \$5,000, including a portion for promotion or canvassing with record companies. Musicaction participation can cover up to 75% of the costs of the project. Part of the envelope is reserved for projects by emerging artists from Francophone minority communities.

National Marketing

70 artists or groups

\$1,456,420

This program is intended for national marketing of a sound recording. Activities eligible for funding are promotion, image production and stage activities. Musicaction funding can assist marketing of a sound recording for up to two years after its initial market launch. Album projects having received production funding automatically receive marketing funding. While such applications are not evaluated based on the grid, they must still show the relevance of the project and its impact on the development of the career of the artist. Projects which production was not funded by Musicaction are evaluated based on a grid that considers the project's professional entourage, marketing plan and performance (sales, airplay and shows).

Maximum funding per project can reach up to \$50,000 and an additional \$10,000 can be allocated for a regional tour. Generally, a maximum amount of \$25,000 can be earmarked for the first activities surrounding the release of the sound recording. In addition, a maximum of \$20,000 can be granted for image production (maximum \$15,000 for a videoclip) and \$15,000 for stage activities. In 2021-2022, Musicaction participation could cover up to 75% of the eligible costs of the project.

Businesses granted a global funding envelope under the Individual Initiative component are not eligible for funding under the National Marketing program.

Support Measure for Artists Who Are Parents:

Fondation Musicaction wishes to further support performing artists, mother or father of a child aged 6 or under, to assist them in their national or international career development by making admissible travel expenses for a person accompanying them who is entirely dedicated to childcare during the trip. Amounts per trip can be increased up to a maximum of \$2,000 for national travel and of \$3,000 for international travel. This support can be used to cover admissible fees, i.e. transportation, accommodation and per diem of the accompanying person.

International Marketing

42 artists or groups

\$691,874

This program is intended for international initiatives focused on distribution and marketing of an album and career development of Canadian artists on a territory outside of Canada.

A first component of this program supports activities to help artists develop and adapt on a target market and to do a showcase or show in front of foreign professionals to enlist the help of a team in the target territory. Funding for *Component 1 – Prospecting a Target Market* is capped at \$25,000 per project and can be used to cover up to 75% of admissible expenses.

Component 2 - Developing a Career in a Target Market, aims to support efforts to develop an artist's career through support for promotional activities and performances, where the artist works with at least one professional structure recognized in the target market. Barring exceptions or when the performance of a project is sufficiently convincing to justify additional support, funding is limited to \$50,000 for this component and any aid granted under *Component 1* is deducted from this funding. Projects concerning the participation of an artist to an official showcase presented during a foreign partner event are admissible for any eligible applicants.

Hubert Lenoir

Credit: Daniel Dugas

LGS

Credit: Troy St. Louis

Generally, businesses granted a global funding envelope under the *Individual Initiatives* component are not eligible for funding under the *International Marketing* program, except for a trip allowing an artist to participate to an official showcase supported under the *International Event* program or an activity that was not foreseeable at the time of application for a global funding envelope. The *Support Measure for Artists Who Are Parents* is available under this program.

Marketing Support for Businesses

24 companies and organizations
\$68,445

This program provides support for travel done by music professionals to develop new national and international markets. Funding per business can reach up to \$10,000 per year. Eligibility is strictly limited to business development activities occurring outside the applicant's province. Record producers and labels, managers, publishers, recognized distributors, music associations and businesses supported under the *Collective Initiatives* component are eligible for this program. Businesses granted a global funding envelope are not eligible.

Support for Development of Artists' Careers, of Skills and Businesses

26 businesses for 71 artists

\$523,747

This program is intended for music businesses that are working directly with artists and/or songwriters and composers to develop their careers. Funding is granted once a year for activities that further the career and skills of artists and/or songwriters and composers (at least 2 and no more than 3). It also seeks to assist in the professionalization and development of the business itself, including the search for new artists and market development, and offers the business the flexibility needed to achieve its plans and meet its development objectives.

This funding is complementary to the aid granted under other Foundation programs and is not intended to supplement the expenses that could be eligible under them. Funding granted to a business can reach up to \$25,000 and cover up to 75% of eligible expenses. It is granted on a competitive basis based on all the applications received and on availability of funds.

COLLECTIVE INITIATIVES COMPONENT - APPROVED PROJECTS

Programming Canadian Artists

Event in Canada

20 projects

\$659,000

Stimulating the programming of Canadian artists in major French-language events to foster their career development is the primary purpose of this program. Specialized music events are also eligible. Except for events carried out by Indigenous peoples or by minority groups that are part of public priorities and policies on diversity and inclusion, events must have developed a significant professional component through organized professional activities.

Maximum funding can reach up to \$85,000 per event for all French-language events and up to \$30,000 for specialized music events. Any new event in the program is however limited to \$15,000 in its first year of funding.

Funding cannot exceed 75% of costs approved or of eligible costs when actual costs prove to be lower.

International Event

14 projects

\$444,000

This program is intended for collective initiatives seeking to stimulate international career development of Canadian artists. It supports the presentation and promotion of international showcases for established export markets favourable to the musical genre presented. Performances must take place before a public of foreign professionals. Priority is given to projects based on an association with a foreign partner. Projects that optimize the presence of artists on the concerned territories by adding performances, business meetings or any other activity for international business development also have priority. Generally, funding can reach up to \$60,000 per project and cannot exceed 75% of approved costs or of actual costs if they prove to be lower.

Music Showcases - Canada's Francophone Minority Communities

33 artists, 6 events from Canadian Francophone communities,
7 Québec events and 11 national tours overseen by presenter networks
\$890,439

The main objective of this program is to stimulate programming of Francophone artists from official-language minority communities at major events and tours to foster the development of their professional careers. The program also aims to encourage access for Canadian Francophone communities to musical performances in their language. The *Support Measure for Artists Who Are Parents* is also available within this program.

Component 1 – National Showcases

This component is intended to support artists from Canada's Francophone communities who are selected to perform an official showcase before industry professionals. Exceptionally, an association or organization from Francophone communities can apply to this program to present a minimum of 3 artists of the Canadian Francophonie within a major event in Québec. Projects approved in 2021-2022 benefited from an exceptional measure increasing funding up to a maximum of 90% of the approved costs or the actual costs. Funding can reach up to \$4,800 per trip. If the project is led by an organization of the Canadian Francophonie, funding can reach up to \$15,000.

Component 2 – National Tours

This component is concerned with professional development of artists and providing them with better exposure through tours in Canada for French-language and English-language audiences. Each tour requires two applications: one from the network and the other from the artist or his or her agent. Specific funding for digital promotion of the tour can also be approved for the network hosting the tour. Projects approved in 2021-2022 benefited from an exceptional measure extending funding up to 90% of the approved costs or the actual eligible costs.

Component 3 – International Showcases and Tours

This component is intended to stimulate programming of Canadian Francophone artists, who have generally at least one marketed sound recording, within foreign events offering them significant exposure. Priority is given to trips by artists selected for an event supported by the *International Event* program. This component also seeks to support international tours as well as activities to help Canadian Francophone artists develop and adapt on a target market.

Projects approved during 2021-2022 benefited from an exceptional measure that allowed to grant them up to 90% of approved costs or actual eligible costs.

Component 4 – Recording of Shows

This temporary component was set up during the pandemic to help make up for reduced opportunities, or lack thereof, for artists hailing from Canadian Francophone minority communities to perform live before their public or before professionals. This component seeks mainly to allow artists to record a high-quality film of their performance to be released on digital or television platforms. Maximum funding possible is \$20,000. Maximum funding of \$9,000 can be granted to presenter networks for digital promotion of the recorded show. Funding can reach up to 90% of approved cost or of actual eligible costs that prove to be lower.

Component 5 – Event in Canada

This component is intended to support Canadian French-language events held in provinces or territories other than Québec and that attract a sizeable number of industry professionals and give artists from Francophone communities significant exposure. It is also intended to promote and foster the presence of artists from the Canadian Francophonie at major Francophone music events in Québec. All criteria and parameters of the *Event in Canada* program apply fully to this component, including the maximum funding, how the project is assessed, eligibility conditions, time to achieve the projects as well admissible and non-admissible expenses.

Promoting Canadian Artists

National Collective Promotion

12 projects

\$669,500

This program seeks to support large-scale collective promotion activities or initiatives that will have a conclusive impact on the development, exposure, availability or position of French-language Canadian music on domestic and digital markets. The activity or initiative must be developed outside the usual business activities of the applicant. Exception is made for recurring collective promotion projects carried out by national, provincial or territorial associations within their usual activities, including gala events or award ceremonies. Generally, maximum funding can reach up to \$400,000 when such is justified by the scope of the collective promotion and the required investment. Assistance can reach up to 75% of approved costs or actual costs when they prove to be lower.

International Collective Promotion

12 projects

\$190,500

This program is intended for collective promotion initiatives that primarily seek to highlight activities abroad by Canadian artists for career development purposes. The initiative could be a collective booth abroad, an advertising campaign or any other promotional activity that will encourage the presence of Canadian artists on the territories at issue. This aid can also be granted for hosting international professionals within events held in Canada. In such situation, the application for aid must be made within the global application made by eligible organizations and events under the *Event in Canada* program. National, provincial and territorial associations receiving support via the *National Collective Promotion* program for a gala-type event or awards ceremony can apply for this additional aid in their global application. Generally, maximum support per project can reach up to \$50,000, including up to \$20,000 for hosting international professionals in Canada. Support granted cannot exceed 75% of the costs approved or the actual eligible costs if these prove to be lower.

Skills Development

Integration Project

27 projects

\$397,750

The main objective of this component is to help professionalize and integrate artists who are starting their career in the music industry. To meet this objective, Musicaction relies on partners recognized by the industry for their work with new musical artists. Supported projects must allow artists starting their career to take part in development, professionalization and integration activities that take place within constructive projects seeking to help them evolve. Priority is given to projects created for artists starting their career who are from minority groups (Indigenous communities, Francophone minority communities or visible minorities) that are part of public priorities and policies on diversity and inclusion. Maximum funding can reach up to \$10,000 per project. If artists from minority groups are selected, the funding could be doubled, for a maximum of \$20,000. Musicaction participation cannot represent more than 75% of costs.

Professional Development Project

19 projects

\$736,000

This program supports collective initiatives seeking to foster skills development by artists and entrepreneurs of the Canadian music industry through financing the organization of supervised professional development activities, of structured projects, and of defined services that reinforce the capacity of the various actors and help develop know-how within the Canadian music industry. Projects seeking to support the offer of professionalization services, whether collective or personalized, by organizations of the music industry hailing from the country's Francophone minority communities are also included in this program. With respect to constructive projects concerned with acquisition of skills and know-how to succeed on international markets, the projects must allow the artists or music entrepreneurs to participate in such professionalization, development, integration or adaptation on foreign soil. Generally, maximum support can reach up to \$75,000 and cannot represent more than 75% of the costs.

Incubator Project

5 projects

\$385,000

The main objective of this component is to help develop the career of Canadian artists on foreign soil. It supports the creation and holding of intensive skills development sessions for export purposes. Participants targeted by this program are the most promising artists that are ready to take their career to the international stage and artist managers as well. Incubator projects must be based on training programs that combine, among others, mentoring services, networking activities, development of performance skills activities, career management activities and other similar activities that will help prepare artists and artist managers for export and for a broader audience. Support is granted based on the approved budget for the project and the availability of the funds. Funding cannot exceed 100% of the approved costs or the actual costs if they prove to be lower.

VIDEO COMPONENT – APPROVED PROJECTS

Video

58 projects

\$853,144

Production of music videos to increase the availability and promotion of Canadian musical content is the main purpose of this program. The *Video* program is open to all Canadian businesses and artists who work with a recognized distributor and who wish to produce a music video for a Francophone vocal musical piece or other type of musical piece (world, jazz, instrumental or classical). The applicant must possess the rights to use the sound recording in Canada. A business or individual can receive up to \$75,000 from this program, excluding funding received under the *Individual Initiatives* component. Grants awarded can cover 100% of a project's costs, up to a maximum of \$15,000.

EMERGENCY SUPPORT AND RECOVERY FUNDS – APPROVED PROJECTS

Support for Live Music Events

79 applicants – Artists, organizations and businesses
\$5,740,793

Showcases, Concerts and Tours

The purpose of this one-time initiative by the Canadian Heritage Department was to stimulate the employment of Canadian artists, musicians, technicians and other workers and service providers, by providing financial support for live music events, such as concerts, tours and showcases, that present Canadian artists performing before a public (in-person or virtual). This funding sought to mitigate the significant financial risks associated with presenting live music events before a public in the uncertain context created by the pandemic. Funding is allocated on a competitive basis based on the feasibility of the project, the extent to which it aligns with the objectives and priorities determined by the *Canada Music Fund* (CMF) with respect to recipients. An applicant can be granted a maximum of \$100,000 and can only file one application during the financial year. The application can include several projects concerning the same artist or various artists. Funding could reach up to 100% of the admissible costs to encourage the music sector to undertake live events and to mitigate the significant financial risks of presenting shows in the current context. Funding was granted on an ongoing basis during the 2021-2022 fiscal year, until the funds from this one-time initiative were exhausted.

Emergency Support for Canada's Live Music Sector – Stream 1

184 Artists, organizations and businesses

\$5,826,211

The purpose of this temporary financial support was to help live music companies and organizations facing financial pressures caused by the pandemic and to allow them to continue to exist during and after the health crisis. Consequently, the financial assistance granted aimed to support operating and administrative costs, to maintain jobs and ensure the continuity of activities, including short-term cash flow and operational viability.

This first stream was for companies that demonstrated they are essential in the development of Canadian artists or the music ecosystem. It was for artists-entrepreneurs, service companies, music festivals, managers and booking agents, concert promoters and producers and live music venues.

Support for Live Concerts – Stream 2

77 Artists, organizations and businesses

\$7,662,783

The purpose of this funding was to support the investments needed to allow domestic concerts to safely resume. This funding sought to allow Canadian live music businesses, organizations and artists-entrepreneurs to plan and present concerts in accordance with local, provincial and national public health directives.

This temporary program had **3 components**:

Component 1 – Infrastructure improvements to adjust to health and safety standards for in-person concerts

Component 2 – Presentation of in-person, virtual and hybrid concerts

Component 3 – Presentation and promotion of live performances to help Canadian artists rebuild their audiences

An applicant could only file one application under this program. The application could concern one or several components of the program and could be for one or several projects regarding one artist or various artists. Projects submitted had to present predominantly francophone content, non vocal content or content in another language.
